

Motorola has emerged as the recognized leader in digital two-way radio technology, with proven solutions in the mission critical, professional, and unlicensed tiers. Now Motorola is enabling innovative solutions for licensed professional tier.

MOTOTRBO™ Professional Digital Two-Way Radio System is a digital communications platform that combines the best of two-way radio with digital technology based on TDMA to deliver increased capacity and spectral efficiency, integrated data applications and enhanced voice communications. MOTOTRBO™ is specifically designed to meet the requirements of professional organizations that need a customizable business critical communication solution using licensed spectrum. MOTOTRBO™ is a private system that can be tailored to meet the unique coverage and feature needs of group-oriented and dispatch environments.

MOTOTRBO™ is a comprehensive solution. Dual analog and digital mode repeater, mobile and portable units, data applications, accessories and services make it easy and affordable to adapt MOTOTRBO™ for the unique needs of your operation, and migrate to a digital two-way radio platform at your own pace.
